A POWDERED MEDICINAL SPRING

Through a recent scientific discovery, it has been made possible to incorporate all the advantages of the famous medicinal springs of Europe into a powder. This new preparation is called LAX-URIC. It is excellent for the treatment of uric acid and gouty conditions, rheumatism, kidney diseases, jaundice, constipation, biliousness, headache, heartburn, etc., acting on the stomach, liver, bowels and kidneys all at the same time. It is taken like salts and is the best saline laxative for all ages and conditions. The price is 25c a bottle, but for a limited time, 10c trial sample bottles may be had at Wells-Haymaker Company, Angle Inn Pharmacy, Stone & Mercer or Farrell Drug Store. Advertisement.

Men Pay Homage to Mother's Friend

"I am not surprised to observe the number of men who come into the store to purchase 'Mother's Friend,'" remarked a leading druggist.
The expectant mother if she hasn't heard of this splendid emollient is probably not reading the papers to much extent. And if she does it is a happy thought to send hubby to the drug store. "Mother's Friend" is applied externally over the abdominal muscles.
It is a gentle, soothing lubricant, penetrates to the fine network of nerves beneath the skin and has a marked tendency to relieve the muscular strain to which these broad, flat abdominal muscles are subjected. The cords, tendons and ligaments are thus permitted to stretch without the corresponding surface strain so often involved during the period of expectation. And particularly in young mothers is this remedial application of inestimable value since in this keeping the muscles firm but pliant, it enables them to go through the ordeal without laceration of the epidermis often the case when this gentle attention is neglected.
"Mother's Friend" is highly recommended by a host of women. Write Bradfield Regulator Co., 41 Lamar Bldg., Atlanta, Ga., and we will send you a valuable little book to expectant mothers.

Have The Telegram Follow You

When you go on your vacation trip this summer, have the Daily Telegram follow you. It will be just like a daily letter from home. Address changed as often as desired. The cost will be only 10c a week, or 25c a month.

Batteries: Brown, Bressler and Lapp. Faber and Schalk.

At St. Louis--R.H.E.
Boston.....000 000 000--0 4 0

Get a copy of the Prohibition Amendment Law and read it for yourself. Do not be dependent upon others for your information, have it as it is. Pocket size, extra quality paper, neatly and durably bound. Price 15c. Call or address A. F. Combs, at the Daily Telegram office. Advertisement.

SYLLABUSES

Of Some Appeal Cases Recently Decided by the State Supreme Court.

Syllabuses in cases recently decided by the state supreme court are as follows:
Brokaw v. Carson et al, Jackson county. Reversed and remanded, Judge Williams.
Equity will not enjoin the operation of an ice plant on account of the noise produced by it, at the suit of a party who consented to its erection within close proximity to his dwelling house, and who permitted it to be completed and expensive machinery installed without objection.

City of Elkins v. Donohue, Randolph county. Decree affirmed, Judge Lynch.
1. Where an owner causes land to be surveyed and platted into blocks and lots, with avenues, streets and alleys, and sells and conveys lots by numbers and street location as designated on the map thereof duly recorded, he thereby dedicates such avenues, streets and alleys to public use.

2. A purchaser of a lot designated in his deed by number, street boundaries and distances, according to such map, is estopped to deny dedication of streets and avenues adjacent thereto.
3. While a city may by charter declare and abate as nuisances encroachments on a public street will not not, for that reason alone, deny relief by injunction.
4. However long continued, encroachments on a public street will not confer title, by adverse possession, to any part of the thoroughfare.

Martin v. Reiniger, Kanawha county. Judgment affirmed, Judge Lynch.

1. Where one, by contract jointly bound by two, pays one of them who accepts the same, his share of the common debt, this effects a severance thereof, whereby the other may alone sue for the share due him under such contract.
2. A case wherein rulings on instructions are approved.

Griffith v. Cook, Raleigh county. Reversed, judgment here. Judge Williams.

A parcel agreement between two persons, not forming a partnership for purposes of speculation in lands, to the effect that one of them shall buy certain lands and take title himself and thereafter convey a one-third interest therein to the other, on payment of a ratable portion of the purchase price, is within the statute of frauds, and no action can be maintained.

TIE FOR HONORS IN CONFERENCE MEET

Henderson of Illinois (top) and Bingham of Denver.
Henderson of Illinois and Bingham of Denver university tied for individual honors at the recent intercollegiate athletic conference meet at Stagg field, Chicago. Henderson won the half-mile, setting a new record. He also won the 440 and 880. Bingham won the discus and hammer throws.

tained on it.

Shrader et al v. Medley et al, Kanawha county. Reversed and remanded, Judge Williams.

An agreement between two or more persons, not general partners, who contemplate bidding on lands at a sheriff's delinquent tax sale, not to bid against one another, or that one of them shall bid in certain tracts in the interest of all, is unlawful, and good cause for setting aside a tax deed acquired in pursuance thereof.

Stewart et al v. Parr et al, Doddridge county. Judgment affirmed, Judge Lynch.

1. Where infants are defendants in ejectment, as properly they may be, the court should, as in this case it did, on plaintiffs' motion, appoint a guardian ad litem, by whom they may appear and defend. But such appointee may, but need not necessarily, be the legal guardian. Nor is it essential he should be named as defendant therein.

2. An instruction, based on, but inadequately stating, correct legal principles, will not be deemed prejudicial, if, when read with others, it is apparent the jury was not misled thereby.

3. An instruction, by which the jury was informed that, "in ascertaining the true boundaries of a tract of land described in a grant or deed, course and distance yield to marked trees and other permanent monuments identifying corners and lines," which, not universally true, is nevertheless appropriate where the identity of some of the corners and monuments is admitted or clearly established by proof, though the identity and location of other lines and monuments is in fact in issue, as to which the evidence is voluminous and conflicting.

4. Where the issues properly submitted to a jury are solely questions of fact, to be determined from competent though conflicting evidence, its verdict will not be disturbed, unless the evidence is palpably insufficient to sustain it.

Floyd Teter vs. Norfolk Fire Insurance Corporation, Barbour county. Judgment reversed, verdict set aside and case remanded. Judge Poffenbarger.

1. To warrant recovery for a partial loss, upon a valued fire insurance policy on real estate, it is necessary to prove compliance with a stipulation to arbitrate the loss, as a condition precedent to the right of action, or an excuse for non-compliance therewith, if it has been denied; and instructions authorizing recovery for such loss, without such proof, are erroneous.

2. A condition in a fire insurance policy, providing for additional insurance on the property, existing or subsequently acquired, is not nullified by a permit to take a limited amount of such insurance.

3. A slight excess of additional insurance under such a permit, without proof of fraudulent intent in the procurement thereof, does not invalidate the potential injury or damage to the property insured, not readily discoverable, until sometime after the fire, may be considered by the jury.

5. A three-fourths value clause attached to a valued fire insurance policy is inconsistent with the statute, and, therefore, void.

6. Cost of construction of the injured or destroyed building, the kind of materials used, their quality and cost, the character of workmanship and other similar matters, of a circumstantial nature are admissible evidence on the issue as to the extent of the loss, and, in estimating the cost, a witness may use, as data, the bills paid for materials and labor in the construction thereof.

7. Fragments of damaged wood, metal, glass and other materials taken from the injured building or debris are admissible as evidence of the extent and character of the injury.

WITHERS

Is Named as Candidate for Congress by Prohibitionists of the First District.

The Rev. A. B. Withers, of Bridgeport, was named as the candidate for Congress from the First Congressional district at the district convention of the Prohibition party, which was held Wednesday afternoon in the Owls hall on Second street.

The meeting was presided over by the Rev. W. E. Pierce, of Cameron, as chairman, with J. Otis Stout, of Clarksburg, as secretary.

A motion was carried that the congressional committee be composed of the county chairman of each county in the district, and Hugh A. Clayton, of Fairmont, was named as chairman of this committee.

The state executive committee met at the Parsons hotel in the morning and plans were laid for a vigorous campaign in every county in the state. It was decided to place a ticket in the field in every county and plans were perfected to import speakers of

national repute during the fall campaign.

BOWLING NEWS

Locals Lose Game.

The Clarksburg Colts duck pin team was defeated by the Ziesing team in a slow game rolled on the Ziesing alleys last evening by fifty-one pins. This was the first game rolled by the local team on the Ziesing alleys and for this reason the local bowlers worked under a handicap.

Crummitt, of the locals, had high average for the evening, while Huffman, of the Ziesing team, had high score.

Clarksburg Colts.

FATHER'S DAY
NEXT SUNDAY

Movement Started by Western Woman Spread throughout the Country.

Next Sunday will be Father's Day. June 21 has been set aside by those who feel that the father has been relegated to the background and too much credit and adulation given to mothers. The virtue of fatherhood will be extolled therefore Sunday.

The idea of Father's Day, which originated with Mrs. John Bruce Dodd, of Spokane, Wash., has been taken up by the Young Men's Christian Association. It is spreading throughout the states and will be observed in many cities.

Word has come from Buffalo, Portland, Dayton, Chicago and many other cities that Father's Day sermons will be preached and that citizens will wear red and white roses in memory of the fathers of the nation who fulfilled their trust to their children.

Here's your chance wives, sons and daughters to do something for dear old dad. What if he has not been in the limelight much lately except to pay the bills? He is certainly deserving of mention one day out of the year.

The wearing of a rose is, of course, an obvious method of demonstrating affection for one's father, but there are many others. The campaign is going to be educational to a lot of folks who seem to think a "daddy" is a matter of course, and it ought to be instructive for all.

7. Fragments of damaged wood, metal, glass and other materials taken from the injured building or debris are admissible as evidence of the extent and character of the injury.

LITTLE OBJECTION TO SALE FOR BIG PRICE OF TWO OBSOLETE BATTLESHIPS

Forward deck of U. S. S. Mississippi.

According to the plan which has been submitted to the senate by Secretary of the Navy Daniels, it is proposed to sell the battleships Idaho and Mississippi for \$5,000,000 each and add enough to the proceeds to build a first-class, up-to-date dreadnaught. There is little objection to selling the two ships, because Greece has offered to pay the United States government just what they cost to build, not allowing for the depreciation in their value in the ten years since they were laid down, but some members of congress do not believe that another ship should be authorized.

Tinplate imports into the United States fell from 135,000,000 pounds in 1902 to 4,500,000 pounds in 1912, while the quantity exported increased from 3,500,000 pounds in 1902 to 183,000,000 pounds in 1912.

A shipment of duck eggs from Ireland, the first made in more than a quarter of a century, recently reached New York. There were 2,200 dozen in the shipment which was made possible by the new tariff law.

It is estimated that there are 37,000 electric vehicles in use in this country, of which 25,000 are pleasure cars. Chicago holds the city record with 2,850 vehicles.

Leeds, England, street cars carried 94,000,000 passengers last year. The revenue was \$3,080,259.

There are 21,500 bank employees in Paris, France.

Jellingham, Wash., has a municipal employment bureau.

There's a lot of satisfaction in quietly getting into a cool place where the Summer Pastime rebus pictures can be worked out at leisure. The prizes are worth waiting and there's pleasure in the job. Our Summer Pastime Handbook will prove a great help. It will cost you thirty-five cents at the Telegram office, or may be ordered through your newspaper deliverer. See the picture in today's issue.
